

ISSAQUAH HIGHLANDS
C/O PORT BLAKELY COMMUNITIES
NPDES PERMIT NUMBER WA-003188-7
ADDENDUM TO FACT SHEET
MINOR MODIFICATION

This is an addendum to the fact sheet accompanying NPDES Permit No. WA-003188-7, issued to Port Blakely Communities. On June 1, 2006, Port Blakely Communities submitted to the Department of Ecology a request for a minor permit modification to NPDES Permit No. WA-003188-7. Port Blakely requests that paragraph S6.A.10 on page 14 of the permit be revised to read as follows:

“BMPs shall be selected from Ecology’s 2005 *Stormwater Management Manual for Western Washington* (SWMM) or equivalent.”

The current language incorrectly refers to the old 2001 SWMM which was apparently a typographical error. The Department accepts this request pursuant to 40 CFR 122.63 (a) allowing minor modifications of NPDES permit to correct typographical errors. The clear intent of the Department was to reference the most current SWMM (or equivalent) at the time of the issuance of the permit.
